

Partner name:	Intent Italy
Tool name :	Kahoot
Main objective of the tool (cf. category)	It is a website that could be used in the education fields based on quiz
Advantages of a tool:	<i>If you want to use the quiz you do not need to subscribe to the website, yet if you want to create the quiz you have to. It is an e-learning, group learning, distance learning, and self-study tool that can be used by everybody and everywhere. It can be considered an efficient and interactive learning tool for the students.</i>
Disadvantages of a tool:	<i>The basic is free yet you must pay for other formula like Pro and Premium. Tracking the student's progress level is a complex process. You need a strong Wi-Fi with multiple players. The background music is distracting</i>
Your own experience with a tool:	<i>It could be a great tool for brainstorming ideas at the beginning of a lesson, as the students think and communicate. Students have a lot of fun with this tool and enjoyed it. It was also used for a pair and group work. It helps cooperative learning a lot. Furthermore, it could be a good tool for feedback</i>
Recommendations:	<i>Kahoot! is a tool that motivates and activates students' learning because it can test their knowledge, reiterate important concepts, and help them retain information. It also gives the opportunity to socialise and discuss in groups especially when the students create their own quiz. In other words ability to further create class discussion and student-to-student interaction is improved.</i>
Use for interdisciplinary teaching and training. <i>(for team building, for creating mental maps to discuss, for self-evaluation, for decision making etc.)</i>	<i>Yes, it could be very useful team building, self-evaluation, decision making</i>
