

Our goal: We take care of the order by producing the ordered quadcopters and shipping them out.

Sequences	questions that need to be answered in order to reach our goal
Sequence 1	What is a quadcopter? Which components do we need for the production? How do we get the materials we need? Which materials do we have in stock?
Sequence 2	How does SAP work? What information needs to be implemented in SAP? How do we implement the order in SAP? How does our production department receive the order? How does our shipping department receive the order? How does SAP help us to take care of the order?
Sequence 3	How does our production process work? How does 3D printing work?
Sequence 4	How does our production process work? How does 3D printing work?
Sequence 5	How can we complete the order? How and why do we benefit from all of this? Why is it important for us to know how the production works?
