x 1-Overview Traece ECEC Occupations Spain

The figure of "Play worker/sociocultural animator" has no place in nursery and primary schools, nor does the ECE Teacher's Assistant or the Senior Specialist in Early Childhood Education, although our institutions do accept students of the advanced level training cycle, Senior Specialist in Early Childhood Education, to carry out the work experience period (teacher training), as well as students studying for the degree of specialist teacher in Early Childhood Education (Early Childhood Education Teacher). Eni, 29th Jan 2021)

-Practical Recommendation for dealing with the list of requirements I'm know for certain that different aspects that verify the achievement of a topic are acceptable to my institution. - Please remember that in Spain doesn't exist an official regulated EQF-level 4 in this field. It is just an online course not recognised by Spanish institutions (Mery, 20th February 19) - see more detailed information in "Overview TRAECE occupations Spain.pdf" LINK to PDF
